

**BACKGROUND:**

Jason has 10 years of crossed-mining, mining/rural, industrial, commercial and petroleum experience. He has specialised in Nickel, Nickel/Cobalt and Gold mining and work has included plant electrical shutdowns, modifications/alterations and commissioning projects.

Jason more recently supervised the electrical and control system installation for the Townsville Bulk Sugar Storage facility. Other large projects have been Murrin Murrin Nickel Cobalt Plant Modifications; construction at Bulong Nickel Project; upgrade/project works at the Kalgoorlie Nickel Smelter, and the Vapour Recovery Unit for BP Kewdale, Western Australia.

Jason has also operated his own electrical contracting company. He has excellent organisational and planning skills and consistently delivers work on or before scheduled time and to quality expectations.

**QUALIFICATIONS:**

- ▶ Trade Certificate in studies in Electrical Mechanics
- ▶ Trade Certificate of Electrical Mechanic
